

APPENDIX C

Other Resources

The following files in the Arbortext Editor distribution are related to FOSI:

- *Arbortext-path*\tutorials\28001C\28001C.sgm
- *Arbortext-path*\samples\regions\sidetitles\avssidetitles.fos
- *Arbortext-path*\samples\regions\watermark\avswatermark.fos
- .fos files in the *Arbortext-path*\doctypes directory.

Other resources include the following:

- The Adepters mailing list, which is considered to be very helpful to users. Send email to adepters@lists.ptcuser.org. At this writing, archives are located at portal.ptcuser.org/p/fo/si/topic=21.
- The author's web site, www.FOSIexpert.com, which includes FOSI code examples.
- The author's *outspec.fos*, which uses background color to help distinguish FOSI components in the tagged FOSI editor. It can be customized as desired. The file can be downloaded from www.fosiexpert.com/fyi.html. Put it in the directory with your .fos file and, at the command line of the tagged editor, enter `set fosi=outspec`.
